### Protect Your Family and Vehicle

The T3 Tracker unit together with 911Tracker Service Plan subscription protects you, your family, and your vehicle with real-time location information and our patented 3-way calling technology to the police.

#### How it works!

**STEP 1:** Thief steals your vehicle – T3 instantly sends your smartphone an SMS (text) message with status and GPS location.

**STEP 2:** You receive notification on your smartphone, verify the event, and call the T3 to make a silent 3-way connection directly from vehicle to the nearest 911 center.

**STEP 3:** The 911center receives the call with real-time vehicle location information allowing police to intercept the thief before they get to the chop shop!

### Locate Your Car Any Time

Even if it's lost in an airport or shopping mall parking lot, T3 knows where your vehicle is at any time. Just send the T3 an SMS (text) message and the T3 will send you the car's location. It will show you the Google Map® on your smartphone so you can get walking instructions right to your car.

Google Map location viewed by owner using their mobile smartphone browser.

Unlike other services, the 911Tracker Service is less than \$10/month.
